Promoting MDS Awareness

This handcrafted bracelet was created to draw attention to Myelodysplastic Syndromes. My design is dedicated to the loving memories of my mother, Betty, and my sister, Linda. They were diagnosed with MDS just eight weeks apart. Both fought the disease bravely and with great dignity.

Now I'm doing what I can to continue their fight. Each bracelet is only \$20.00 (plus S&H). Visit my website for details. A portion of the proceeds from the sale of my bracelets will be donated to the MDS Foundation to help further their research and create awareness.
