

Cancer Supportive Care Program

Support Groups
All classes are free

Myelodysplastic Syndromes Patient & Family Support

This group is designed to provide mutual support and education to individuals with Myelodysplastic Syndromes (MDS) who may feel a little less alone by meeting with others whose situations are similar to their own. The group will meet the 1st Friday of the month.

We will have **speakers every other month** about a variety of topics such as current information about MDS, therapeutic approaches, clinical trials, nutrition and many more. Family members and caretakers are welcome.
